

XTeer Gear Oil 5 80W90

Description

XTeer Gear Oil 5 is the most advanced manual transmission fluid designed for premium cars with the latest technology. It is suitable and engineered to provide excellent protection against viscosity breakdown. It is specially recommended when the manufacturer specifies GL-5 transmission oil with a viscosity of SAE 80W90.

Application

- GL-5 differential gears specified with a viscosity of SAE 80W90

Features / Benefits

- It provides increased protection against wear and tear.
- It provides smooth gear shifting under a variety of temperature.
- It provides excellent protection against rust and corrosion

Remarks

XTeer Gear Oil 5 meets or exceeds the requirements of

- GL-5

SAE	Viscosity		Viscosity Index	Flash Point (°C)	Pour Point (°C)
	40°C	100°C
